HAIR FOR QUEENS

BY MY ROIAL EARS

Hair From India

Our Indian Hair collection is 100% human hair sourced from North and South India. They are a long lasting investments depending on your upkeep. This collection holds some of the finest wavy and curly hair patterns with thick, coarse hair textures.

South Indian Hair: this is a single donor hair sourced directly from Southern Indian Temples. This hair can be bleached to the lightest blond and it is very good for a natural look. It is 100% unprocessed, which means that we use no steam to make its textures and it's textures will always remain the same pattern through many washes. Our South Indian hair comes in 4 textures: natural straight, wavy, curly and steamed curly. It's natural wavy/curly are thicker than its natural straight. Natural straight can be compared to Slavic hair and all of the four textures for this comes in nature light brown to dark black shades. This hair requires a hair maintenance of care as this is the purest hair available in the market.

North India Hair: This is a multiple donor mix hair but unprocessed with cuticle aligned. It can be bleached up to a yellow blond (colour 27) and it is good for a straight/ natural look. This hair requires less maintenance of care than our South Indian
